# Table of Contents

I. List of Figures ............................... I

II. List of Tables ............................... II

III. List of Abbreviations ..................... III

IV. Abstract .................................. IV

## 1. General Introduction

1.1. Stress response ......................... 1
    1.1.2. The HPA Axis ..................... 1

1.2. Glucocorticoids, learning and memory
    1.2.1. Effects on memory consolidation ... 3
    1.2.2. Effects on memory retrieval ...... 4

1.3. Maladaptive memories in psychiatric disorders
    1.3.1. The fear conditioning paradigm ... 5
    1.3.2. Therapeutic interventions ........ 6
        1.3.2.1. Preventing memory consolidation ... 6
        1.3.2.2. Enhancing extinction learning ... 7
    1.3.3. Return of fear ................... 8

1.4. Memory reconsolidation ................. 8
    1.4.1. Theoretical and clinical implications ... 10
    1.4.2. Evidence for successful interventions ... 10
    1.4.3. Challenges and methodological considerations ... 12
        1.4.3.1. Boundary conditions .......... 12
        1.4.3.2. Achieving a reconsolidation effect .... 14

1.5. The effects of cortisol and stress on fear memory reconsolidation ... 16

1.6. The current work ....................... 17
    1.6.1. Effects of cortisol and stress on fear memory reconsolidation ... 17
    1.6.2. Sex differences and effects of hormonal contraceptives ... 18
    1.6.3. Studies outline and predictions ... 18

## 2. Study I

2.1. Hypotheses ......................... 20

2.2. Methods ................................. 21
5. **General Discussion**

5.1. Results summary

5.2. The three studies: Acquisition and reactivation

5.3. The three studies: Fear extinction

5.4. The return of fear

5.5. Cortisol enhances reconsolidation in males
   5.5.1. Direction of the effect
   5.5.2. Specificity of the effect

5.6. Cortisol does not affect reconsolidation in females
   5.6.1. Lack of effect
   5.6.2. Sex differences

5.7. Stress impairs memory reconsolidation in males
   5.7.1. Direction of the effect
   5.7.1.1. Dose-dependent effects
   5.7.1.2. SNS activity
   5.7.1.3. Affective and cognitive factors
   5.7.2. Generality of the effect
   5.7.3. Reinstatement patterns in the control groups

5.8. Theoretical implications
   5.8.1. Is reconsolidation re-consolidation?
   5.8.2. The persistence of fear memories

5.9. Clinical implications
   5.9.1. Extinction- and reconsolidation- based therapies

5.10. Future directions

5.11. Conclusions

6. **References**

7. **Appendix**

7.1. Curriculum Vitae

7.2. List of Publications

7.3. Acknowledgments
