# Table of Contents

List of Figures .................................................................................................................................................. vi
List of Tables ....................................................................................................................................................... vii
List of Abbreviations and Acronyms ................................................................................................................... viii
Declaration ........................................................................................................................................................... xi
Acknowledgement .................................................................................................................................................... xi
Abstract ............................................................................................................................................................... xii

## Chapter One: Introduction to the Study ........................................................................................................... 1
1.1. Contextual background to the study ................................................................................................................ 1
1.2. Problem statement and justification for conducting the research ................................................................. 6
1.3. Objectives of the study ....................................................................................................................................... 10
  1.3.1. Specific objectives of the study .................................................................................................................... 10
  1.3.2. Working hypotheses ....................................................................................................................................... 11
  1.3.3. Research questions ....................................................................................................................................... 11
1.4. Significance of the study .................................................................................................................................. 12
1.5. Delimitation, scope of the study, and justification for choosing Malawi and Zambia as case studies ....... 12
1.6. Structure of the study ........................................................................................................................................ 14

## Chapter Two: The Mechanics of FDI ............................................................................................................... 17
2.0. Chapter synopsis ............................................................................................................................................. 17
  2.1. Definition of FDI ............................................................................................................................................... 19
  2.2. Types of FDI: Vertical versus horizontal FDI .................................................................................................. 20
  2.2.2. FDI Classifications ..................................................................................................................................... 20
  2.3. Theories of FDI ............................................................................................................................................... 21
  2.3.1. Theories of FDI based on perfect competition .......................................................................................... 22
  2.3.1.1. The differential rates of return hypothesis/cost-of-capital theory of FDI ............................................. 22
  2.3.2. Theories of FDI based on imperfect competition ...................................................................................... 23
  2.3.2.1. International organization theory ......................................................................................................... 23
  2.3.2.2. The Monopolistic power hypothesis ...................................................................................................... 25
  2.3.2.3. Transaction cost or internalization model .............................................................................................. 26
  2.3.2.4. Vernon’s product life cycle theory ......................................................................................................... 27
  2.3.2.5. The oligopolistic theory of FDI ............................................................................................................. 29
  2.3.2.6. Dunning’s eclectic theory of FDI ........................................................................................................... 30
| 2.4. FDI and the operations of multinational corporations | 33 |
| 2.4.1. Multinational operations: Foreign outsourcing and off-shoring | 37 |
| 2.5. Evolution of global FDI flows | 38 |
| 2.6. Recent trends in FDI flows across the world | 43 |
| 2.7. Chapter conclusion | 44 |

**Chapter Three: Defining Inclusive Growth**

| 3.0. Chapter overview | 45 |
| 3.1. The concept of inclusive growth | 45 |
| 3.2. Inclusive of large part of the labor force | 46 |
| 3.3. Economic growth as the focal point of inclusive growth | 47 |
| 3.4. Productive employment creation: the main instrument for achieving inclusive growth | 48 |
| 3.5. Chapter summary and conclusion | 49 |

**Chapter Four: Literature Review on the FDI-Inclusive Growth nexus**

| 4.0. Chapter preview | 50 |
| 4.1. Theoretical Literature review on the FDI-economic growth nexus | 50 |
| 4.1.1. Post-Keynesian growth models | 51 |
| 4.1.1.1. Harrod-Domar growth model | 51 |
| 4.1.1.2. Two-Gap growth model | 53 |
| 4.1.2. Neoclassical growth model | 60 |
| 4.2. Empirical literature review: some prominent empirical studies on the FDI-economic growth nexus | 66 |
| 4.3. FDI, welfare and poverty reduction | 68 |
| 4.3.1. FDI’s role in protecting the poor from bad investment decisions and reducing financial volatility | 69 |
| 4.3.2. FDI and promotion of improved corporate governance | 70 |
| 4.3.3. FDI and better social and environment standards promotion | 71 |
| 4.3.4. FDI and enhancement of social safety nets for the poor | 72 |
| 4.4. FDI and income inequality | 72 |
| 4.5. The FDI and the inclusive development debate | 74 |
| 4.5.1. Traditional economic arguments in support of FDI | 75 |
| 4.5.1.1. Filling savings, foreign-exchange, revenue, and management gaps | 75 |
| 4.5.2. Welfare related-criticisms arguments against FDI | 76 |
| 4.5.3. Ideological and philosophical arguments against FDI | 78 |
| 4.5.4. Reconciling the advantages and disadvantages of FDI | 80 |
| 4.6. Chapter summary and conclusion | 83 |
Chapter Five: FDI and Economic Development in Malawi and Zambia in the Post-colonial Era

5.0. Chapter overview

5.1. FDI and macroeconomic performance in Malawi

5.1.1. Overview of Malawi’s economy and recent macroeconomic developments

5.2. Post-colonial FDI and inclusive development promotion policies in Malawi

5.2.1. The pre-reform period (1964-1980)

5.2.2. The period of macroeconomic policy reforms (1981-1994)

5.2.3. The post-reform period (1995-to-date)

5.3. Recent developments in Brownfield and Greenfield FDI inflows into Malawi

5.4. Constraints affecting Malawi’s FDI promotion and inclusive development agenda

5.5. FDI and macroeconomic performance in Zambia

5.5.1. An overview of recent FDI and macroeconomic developments in Zambia

5.5.2. Post-colonial FDI and inclusive development promotion policies in Zambia

5.5.2.1. Pre-policy reform period (1964-1983)

5.5.2.2. The structural adjustment phase (1984-1987)

5.5.2.3. The policy reversal period (1987-1989)

5.5.2.4. Liberalization period (1990-1991)

5.5.2.5. The macroeconomic reform period (1991-present)

5.5.3. Recent developments in Zambia’s Greenfield and Brownfield FDI inflows

5.5.4. Constraints facing Zambia in attracting FDI and boosting inclusive development

5.6. Chapter summary and conclusion

Chapter Six: Analytical Framework and Econometric Models

6.0. Chapter overview

6.2. Modelling and estimating the FDI effect on economic growth

6.2.1. Determining the direction of causality between FDI and economic growth

6.3. Modelling and estimating the FDI-effect on employment

6.3.1. Derivation of the FDI-employment growth model

6.4. Estimating the relationship between FDI and income inequality

6.4.1. Establishing the direction of causality between FDI and income inequality

6.5. Chapter summary
Chapter Seven: Empirical Estimation and Interpretation of the Study’s Results

7.0. Chapter overview

7.1. Description of the data and estimation techniques

7.2. Empirical analysis of the pace of FDI-induced economic growth

7.2.1. FDI-PCI growth relationship: Empirical evidence from Malawi

7.2.2. FDI-PCI growth relationship: Empirical evidence from Zambia

7.3. Empirical examination of the long-run relationship between FDI and PCI growth

7.4. Determining the direction of causality between FDI-to-GDP ratio and PCI growth

7.5. Empirical analysis of the FDI-employment growth relationship

7.5.1. FDI-employment growth relationship: Empirical evidence from Malawi

7.5.2. FDI-Employment growth relationship: Empirical evidence from Zambia

7.6. Analyzing the FDI-effect on income inequality in Zambia and Malawi

7.6.1. Unit root tests

7.6.2. Lag selection

7.6.3. Cointegration tests for FDI and income inequality

7.6.4. Determination of causality in the FDI-income inequality nexus

7.6.5. Stability of the VECM

7.6.6. Impulse response functions: Reaction of income inequality to changes (shocks) in inward FDI

7.6.7. Robustness check for autocorrelation in the VECMs

7.7. Chapter conclusion

Chapter Eight: Conclusions, Policy Recommendations and Directions for Further Research

8.1 Summary of the study’s empirical findings

8.2. Policy recommendations

8.3. Limitations of the study and suggestions for further research
